Education

Bachelor's of Science in Computer Science

Arizona State University · Concentration: Software Engineering · GPA: 3.66/4.00

May 2021
Tempe, AZ

Master of Science in Computer Science

Arizona State University · Concentration: Cyber Security · GPA: 3.42/4.00

May 2022
Tempe, AZ

Technical Skills

C/C++	Python	Java	Groovy	JavaScript	Bash
Jenkins	RESTful APIs	Boost	ROS	Linux/UNIX	x86_64
SQL	AGILE	CI/CD	Cryptography	AI/ML	C#/ASP.NET

Work Experience

Software Engineer II

Microchip Technology

July 2022–Present
Chandler, AZ

- Designed and maintained CI/CD pipelines using Jenkins and Groovy for automated testing and production environment emulation, improving release reliability and test coverage.
- Implemented modern cryptographic standards including Ed25519 and Edwards Curve algorithms in C/C++ for use in secure embedded systems products.
- Engineered AI-powered N8N automation workflows that perform automated code reviews on pull requests, accelerating developer feedback cycles.
- Developed RESTful API integrations and Python tooling to extend and support internal software testing infrastructure.

Computer Science Tutor, Fulton Schools of Engineering

Arizona State University

August 2020–May 2022
Tempe, AZ

- Reinforced classroom learning with additional discussion and focused topic review.
- Instructed students and supported understanding of computer science concepts.

Physics LA, ASU Physics Department

Arizona State University

August 2019–December 2020
Tempe, AZ

- Attended all scheduled sessions and maintained open hours for general student availability.

Cashier

Sam's Club, Walmart Company

June 2018–August 2018
Gilbert, AZ

- Drove sales and add-on purchases by promoting specific item options to customers.

Computer Science Experience

Software Lead – ASUR Underwater Robotics

Arizona State University

August 2020–May 2021
Tempe, AZ

- Developed high-level architecture for autonomous and controlled underwater robotics.
- Delegated specific topics of research and development to software team members.

Vice President – ASUR Underwater Robotics

Arizona State University

May 2021–May 2022
Tempe, AZ

- Aided and assisted President in club decisions and management.
- Managed communication between club officers and the software development team.

Project Experience

I2C Serial Communication Protocol, ASUR

Arizona State University

August 2018–May 2019
Tempe, AZ

- Developed I2C serial protocol for underwater robotics motor controls through a microcontroller.
- Wrote code to convert control values to serial-transferable strings.

Web-Based Game, ASU Capstone Project in Collaboration with NASA Psyche Project

Arizona State University in Collaboration with NASA Psyche

August 2020–May 2021
Tempe, AZ

- Provided design suggestions and collaborated on design elements.
- Developed code and game logic for Phase One of the final product.
